

S/N	MONTH	COURSE TITLE
	MARCH	Play and prospect identification and mapping
		Advanced AVO, Inversion, and Attributes: Principles and Applications
		Drill String Design & Practices
		Rock Physics - Integrating Petrophysical, Geomechanical, and Seismic Measurements
		Gas Condensate reservoir Engineering
		Oil and gas value chain.
	APRIL	Advanced Enhanced Oil Recovery techniques
		Rock physics analysis of seismic interpretation.
		Directional, Horizontal, and Multilateral Drilling
		Pore Pressure, Fracture Pressure and Well-Bore Stability
		Reservoir Simulation Strategies
		Petroleum Taxation & Royalty Systems
	MAY	Applied Subsurface Geological mapping
		Rocks to models : Geological Reservoir characterization and modelling
		IWCF Well Control Refresher Principles & Practices Updated with Subsea
		Wireline Formation Testing and Interpretation
		Onshore Pipeline Facilities - Design, Construction and Operations

		Technical report writing & presentation skills for the Petroleum Industry
	JUNE	Advanced Sequence Stratigraphy Concepts and Trap Styles in Petroleum Exploration and Production.
		Seismic field techniques.
		IWCF Well Control Refresher Equipment Combined Surface and Subsea.
		Integrated Wellbore and Reservoir Analysis: From Pore to Well Test Scale
		Offshore Systems Design and Construction.
		Essential Leadership Skills for Technical Professionals in Oil & gas industry.
	JULY	Fault Seal Analysis in Exploration and Development: Theory and Application.
		Integration of Rock, Log, Test and Seismic Data.
		IWCF Well Intervention Pressure Control.
		Enhanced Oil Recovery Techniques: Chemical, Gas and water
		Interpretation and review of Piping & Instrumentation Diagrams
		Strategic Procurement and Supply Management in the Oil and Gas
	AUGUST	Subsurface Facies Analysis - Integrating Borehole Images & Well Logs with Petrophysical and Seismic Data to Develop Geologic Models.
		Seismic Positioning Data Management - SPDM
		Integrated Production System Modelling : performance and optimization

		Reservoir Fluid Properties: Preparation for Reservoir Engineering and Simulation Studies
		Advanced Completion Engineering
		International Oil and Gas Law.
	SEPTEMBER	Basin Analysis and Petroleum Systems Modeling.
		Seals, Reservoirs and Prospects Risk Assessments for E&P
		Gas production / processing for operations and maintenance.
		PVT & Phase Behaviour of Petroleum Reservoir fluids
		Subsea Production Systems and Technologies
		Applied HSE Management
	OCTOBER	Structural and trap Styles in Petroleum Exploration and Production
		Drilling Operations & Project Management.
		Gas Well Deliquification
		Reservoir Management and Monitoring
		Risk analysis, prospect evaluation and exploration economics
		Advanced Fire fighting
	NOVEMBER	Quality Assurance/Quality Control Skills in Subsurface Mapping (QAQC)
		Well Design Planning & Programming.
		Advanced Formation Evaluation in Sandstones
		History Matching and Reservoir Optimization
		Advanced Petroleum Fiscal Design with LNG Economics

		Data Management - Exploration to Abandonment.
	DECEMBER	Applied Coring and Well Logging for Enhanced Reservoir Characterization
		Solids Control Systems.
		Applied Geostatistics for Petroleum Engineers and Geoscientists
